

## 數位發展部資通安全署

### ✧ 關於本署

我國政經情勢特殊，除面對全球複雜多元的資通環境，還需面對嚴峻的資通安全威脅，因此持續落實精進各項資通安全防護工作實屬必要。緣此，行政院於102年3月8日設立資通安全辦公室，105年8月1日正式設立資通安全處，107年6月6日公告資通安全管理法，統整國家資通安全機制，將國家整體資安工作正式法制化。111年1月19日總統令公告數位發展部組織法，數位發展部為辦理國家資通安全政策規劃、計畫核議及督導考核，執行國家資通安全防護、演練與稽核業務及通訊傳播基礎設施防護，特設資通安全署（以下簡稱本署）。

### ✧ 依本署組織法規定，本署掌理下列事項：

- 一、國家資通安全政策與法規之規劃及執行。
- 二、國家資通安全重大計畫與資源分配之規劃、協調、推動及督導考核。
- 三、國家關鍵基礎設施資通安全管理與防護機制之規劃、推動及執行。
- 四、國家資通安全事件偵測與通報應變機制之推動及執行。
- 五、資通安全相關演練與稽核之推動及執行。
- 六、資通安全教育、訓練與宣導之規劃、推動及執行。
- 七、資通安全國際交流及合作之推動及執行。
- 八、政府機關（構）與公營事業機構資通安全業務之評鑑及考核。
- 九、統籌政府機關（構）與公營事業機構資安人員之教育訓練及業務評鑑。
- 十、其他有關資通安全業務事項。

# Administration for Cyber Security, moda

## ✧ About us

Due to Taiwan's unique political and economic situation, the country faces not only a complex global cyber security environment but also severe cyber security threats, making the continuous implementation and improvement of cyber security measures a necessity. Therefore, the Executive Yuan set up the Cyber Security Office on March 8, 2013, and officially established the Department of Cyber Security on August 1, 2016. On June 6, 2019, the Cyber Security Management Act was announced to consolidate national cyber security mechanisms, incorporating the country's overall cyber security measures into the legal system. On January 19, 2022, the Organizational Act of the Ministry of Digital Affairs (moda) was announced through a Presidential Order. To plan national cyber security policies, review, approve, supervise, and assess programs, implement national cyber security measures, conduct drills, and audit the defense of works and telecommunication infrastructure, the Administration for Cyber Security (hereinafter referred to as "the Administration") is established under moda.

## ✧ According to the Administration's organizational act, the Administration is responsible for the following:

1. Planning and implementing national cyber security policies and regulations
2. Planning, coordinating, promoting, supervising, and assessing major national cyber security programs and resource allocation
3. Planning, promoting, and implementing cyber security management and defense mechanisms for national critical infrastructures.
4. Promoting and implementing national cyber security incident detection, notification, and response mechanisms
5. Promoting and implementing cyber security-related drills and audits

6. Planning, promoting, and implementing cyber security education, training, and awareness promotion
7. Promoting and implementing international exchanges and cooperation on cyber security
8. Evaluating and auditing cyber security works at government agencies and public entities
9. Coordinating government agency and public entity cyber security personnel training and evaluation
10. Other works relating to cyber security.
